### Winter Departs, Vowing to Search for the Snow That Never Came

If you tried to ski, sell a sled or build a snow-man, you know that the winter now ended was no real winter at all.

In fact, the non-Winter set a record for no-snow. No measurable snow fell at all in Princeton during December. January, February and—so far, if your snowman can keep his fingers crossed—March, according to Science Associates. If it snows now, it won't be counted as winter snow, because spring began at 1:13 Tuesday afternoon.

The closest to that record was the winter of 1918-19 when the Trenton Weather Bureau recorded two inches (usually this area averages 23.8 inches during a winter.)

The snowfall in October—remember? — only dusted Nassan Street with one inch, but up in the "mountains" around Ridgeview Circle, home-owners shoveled out three to four inches. That area is about 100 feet higher than the center of town, which can make quite a difference in weather.

Rain, of course, was something ebe again. In the first 12 days of this March, Princeton bud 2.67 inches of rain, a nice start towards the December measurement of 648 inches, in January, we had 4.61 inches, in February 4.85. The National Weather Service in Trenton reports 9.97 inches so far this year (normal is 9.53 through March), but Science Associates says Trenton always measures lower than Princeton: weather instruments in Trenton are on a roof, and S.A. thinks wind blows rain, so that not all of it gets into the gauge.

A mid-January cold snap, from the 7th to 14th, actually fraze Lake Carnegie hard enough for two and one-half days of skating. But the area, generally, basked in weather eight degrees warmer than normal.

The mild days affected Princeton in a variety of ways, Kids daln't get any snow days home from school, for one thing. Two "emergency days" were blocked into the school calendar, but school won't close any earlier this Inne.

In past years, with left-over snow days, the school board has given everybody one more day over Memorial Day weekend, keeping one remaining day "just in case" and adding it on in June. State law requires a minimum of 180 days of school, but there's no Lw saying you can't have 181 days.

Did the taxpayer get a break, with no municipal snow to shovel?

"We hudgeted \$3,100 for rock salt and \$1,500 for saud," says Borough Engineer Donald Harney, "Int we've got a stockpile in the garage, so we haven't ordered any so far. But don't forget," he warns, "we could have heavy snows this November—that's still in the 1973 budget year,"

The Borough saved, Mr. Harnev estimates, about \$5,000 in overtime wages ("Storms always seem to come on weekends, when the men aren't working") but there again, who can predict the snows of autumn?

of the plow had been planned as a Borough purchase, but the plows were never even put on the trucks.

It's hard for either Borough or Township to calculate precisely how much money was saved by the mild winter because budgets aren't assembled according to "program budget in g." Joseph R. Nini, Township Administrator, points out that the road costs budget includes \$10,000 for overtime, but this includes shoring up the town affer hurricanes like Doria, as well as plowing snow.

In the office of Township engineer Joseph Hudget, they say that the 1973 Figure is \$1,000, compared to \$6,000 in 1971, for materials like sand and salt, gasoline, the use and repair of, snow removal togogment. But no taypayer can confit, the says many conditions of the says bleakly.

into 20 Nassau Street for nearty 20 years, following a generation of supplying line linens
from a Trenton shop. Here,
more than anywhere else,
you'll see the interesting ways
of blending linens with accessuries.

of kinding liness with accessions.

The shop window gives you the cues Long decorated by Betty Wright, and now in the capable hands of Mrs. Helen Reader, the window at Stone's one Chelstmas inspired a small girl to say to her grandmother, I wish I lived there!"

Easter eggs, for instance, at Stone's are line precale-weave date in the capable hands of Mrs. Helen Reader, the window at Stone's There are all kinds of blazer patterns, by the way, including a very easy one without a collage places in natural egg sizes.

Easter eggs, for instance, at Stone's arc hand-painted hisque pleces in natural egg sizes for larger with the flower decoration in rellel. There are eggs in solid colors, others of while egg, for instance, has a small ladybug near one end. Others with forget-me-not or filly of the valley in deleate, brush washed trim. Prices range from \$1.75 to about \$3.50. The eggs open in half for pleasant keeping of pills on the dining table or hairpins on a dresser, or atamps at a desk. From France and from the Orlent, Mr and Mrs. Stone have culted headed flawers, such as yellow centered blue posts "growing" in a white china pot, There are porcelain likes of the valley based in a clear block, limoges china flowers in heautiful intelieve the colors are framed in old fashianed houquels. All are in expensive, yet judiciously, knowingly chosen to blend with pretty table settings.

For nature lovers, Stone's Linne have such table lems as a round trivel with dusives and butterflies in clear lucite; flower particle on them, avarian china trays, how will yet the valley are painted on them, avarian china trusy, how will motching turn blers. #### The Printed Sheet

The Printed Sheet

Last year, a Japanese designer named Hanae Mori won much acclaim for her butterfly design which appeared on the Martex sheets. It was gracefully scattered pattern, and a pleasant change from allover prints,
This year, Stone's Linen shop is showing her newest idea, "Floating Gardens," with a design of fragile blossoms swaying on slim stems. The background colors are pink or blue or yellow. The sheets and cases are line percale-weave dacron and polyester, Matching towels, too.

"False Accusations."

To the Editor of Town Topics:
Four of my colleagues at the Institute for Advanced Study. In their letter to TOWN TOPICS of March 15, accuse our director, Carl Kaysen, of making an incorrect statement to TOWN TOPICS and of having misled the Institute faculty. Both of these accusations are false.

Kaysen's statement reported in the March 8 TOWN TOPICS is a very brief but essentially correct description of normal Institute practice in making appointments. Kaysen has never made any secret of the fact that he reserved the right to recommend appointments to the Trustees against the wishes of a majority of the faculty.

I would have been surprised if he had not done so in the case of the appointment of Prof. Bellah. Throughout his long and arduous struggle to build up a school of social science at the Institute, Kaysen has heaved with scrupillous honesty and exemplary patience in dealing with a divided faculty.

Most of us in the Institute prefer to mind our own thust. It also believed that the particular history of this trans prefer to mind our own thust.

sen has behaved with scrupillous honesty and exemplary patience in dealing with a divided faculty.

Most of us at the Institute prefer to mind our own business and get on with nur work. We respect the opinions and the sincerity of our colleagues even when we disagree with them. But when an attempt is made to blacken the reputation of a fellow cilizen with false accusations of dishonesty, common decency compels me to reply to it.

#### Rusedale Widening Opposed.

To the Editor of Town Topics: With other concerned citi rens, I should like to add my With other suncesses with planting so day from the reach the whiching of Rosedale Road. This is not a road through one countryshed where intersections are infrequent and can be controlled. There are homes continuously on either side. Anyone trying to turn into his own drive, coming from the opposite direction would be forced to forcing at least two lance of furious traffic with subsequent unlimited chances of accident. Furthermore, as one who has driven that road daily for more than twelve years. It know that the traffic is not so heavy as to require this widening. At rush hour there is a good deal of it, but it is never jamnued.

Why then ruin its rural character, desiroy trees, entrances with planting so old as to be irreplaceable, and endanger the lives of those with live along it?

The Thoreau edition is part The Thoreau edition is part of a major project, organized by the Center for Editions of American Authors of the Modern Language Association, with support for the National Endowment for the Humanities, to publish authoritative texts of classic American authors—including Emerson, Hawthorn Melville, Twain—through university presses at Princeton, Harvard, Dhio State, Northwestern, the University of California, and clsewhere.

Two volumes of the Thoreau edition—"Walden" and "The Maine Woods"—have already appeared, earning praise for their design and format. When complete, at the end of this decade, the edition will provide scholars and general readers with Thoreau's extant writings, some previously unpublished, in "clear" (unannotated) texts, followed by historical essays and explanatory notes.

As editor-in-chief, Dr. Howarth supervises the work of associate editors at other universities, and after September he will direct a textual center for the edition which will be established in Princeton University's Harvey S. Firestone Library. At 32, he is the youngest editor-in-chief in the CEAA project.

Dr. Howarth is a 1962 honors graduate of the University of Illinois. He received his M.A. (1963) and his Ph.D. (1967) from the University of Virginia where he held an NDEA and a Virginia-Wilson Dissertation Fellowship.

Appointed to Princeton's English Department in 1966 as an Instructor, fice became an Assistant Professor in 1968. Two years later he was named John E. # WHY WE MUST HAVE A NUCLEAR MORATORIUM IN NEW JERSEY

Nuclear power plants have come under increasing criticism. On January 31, 1973 The New York Times editorialized:

". . . miclear power generation has become something of a manster with dangers to prople and the environment so awesome as to raise serious daubts that this is indeed the best energy source of the future."

THERE ARE THREE MAJOR AS-PECTS OF NUCLEAR POWER WHICH COMPEL A HALT NOW.

- I. Emission of low-level radioactive wastes into air and water in routine plant operation ereate unacceptable health hazards -- increased infant mortality, cancer and lenkemia. (1)
- Large nuclear puwer plants, like NJ Power & Light's Dyster Creek, cannot be made safe from the possibility of a catastrophic accident which could kill tens of thousands, inflict billions in property damage and land denial. (2)

The Idea was to seek out fine quality stores that offered better merchandise at reduced prices. We were fortunate to find exceptional merchants who offered a variety of merchandise.

We then selected a beautifully wooded setting in which to locate this unusual concept. Every store would display their merchandise tastefully in a pleasing and relaxed atmosphere with lots of congenial sales help.

Combining pleaty of free parking and the ease of drive-in service with handy in-town location, our office at 370 East Nassau St. near Harrison has been a hit with Princeton-area families and businesses since it first opened 10 years ago. Now, after extensive renovations inside and out, you'll find it easier, more convenient and more pleasant to bank here than ever before. We've moved the main entrance from the front to the side to make it closer to our big parking lot and we've enclosed it to protect you from the elements. We've built a handsome new facade and

rearranged and redecorated the inside, too. And there are three drive-in service aisles. Come on in soon and see how convenient and

how beautiful in-town hanking can be!

As part of our celebration of the new world of banking convenience at 370 Fast Nassau St, we're giving away a fun-filled four-day, three-night trip for a family of four to Walt Disney World in Florida. No putchase is necessary to be eligible—you don't even have to be a bank customer! Just fill out this entry blank or the one that you can pick up at our newly-renovated office, then drop it in the entry box. That's all there is to it. The winner will be selected in a random drawing. The prize Includes all transportation via Eastern Airlines for two adults and two children plus ground transfers, three nights' accommodations at one of the Disney World hotels, admissions to the Magic Ringdom and 18 of the theme park's attractions plus use of the Disney World transportation system, a free luau and \$100 cash for food and fon.

-Continued From Fage 28 cities. New York, Provi-dence, Chicago and several European capitals as well as Mexican cities are included. Some of the groupings are purely architectural but the majority of the photographs locus on people.

One series shows only laces, another utilizes more

complex techniques to juxta-pose life experiences with television screens. A vibrani collection of people, set in dark, strongly composed sci-tings, is reminiscent of Rembrandt paintings in the use of spotlight effects and dark

surroundings.
Italian drawing techniques present a wide selection of drawing media in the Prints and Drawings Gallery. Four centuries are spanned and a multiplicity of style as well as media are present. Ink drawings, wash, chalks, crayon and media used in

combination are all present in great variety of subject matter.

In the Morrison Gallery, a small collection of Rem-brandt etchings include religious scenes, portraits and a self portrait. In all the etch-ings, style, sensitivity and a technical magnificence make these small works of art an immense viewing experience,

Do you know when the first NCAA championship basketball tournament was held, and who won it! First one was staged 34 years ago, in 1939, and the first school to win it was the University of Oregon.

Did you know that In the enlire history of the MCAA basketball tournament, an Eastern school has won the championship only three times! . . . The only Eastern schools who have even won it were Holy Cross in 1947, CCNY in 195D and LaSalle in 1954.

Here's an oddity that happened once in the NCAA championship basketball tournament-and what are the chances of it every occuring again, EACN of the teams that linished first, second and third in the NCAA lournament of 1939 ALL had names starting with the SAME letter—"0" Oregon finished first that year, Ohio State second and Oklahoma third , . . That's never happened in the more than 30 years since then. Do you think it will ever happen again!

#### Weakness in Field Events PHS Track Problem

From the half-mile through the two-mile, the Princeton High School track team is kneedeep in talent. Te longer races will be the Lattle Tigers' forte this season but elsewhere coach Larry Ivan's squad poses so many question marks that it is doubtful whether PHS will be shie to improve on last year's 48 dual meet record.

"We'll be strong in the 2-mile and 880," said Ivan We'll be strong in the 2-mile and 880," said Ivan We'll be strong in the clay team will be a lot better, too. We won't have to precemeal we've got the depth this year,"

Ivan has a host of out standing runners, led by co-captin Mike Coda, Pete Nichols, Martin Willard and Bill Frazier. Others are Tim Anderson, Steve Roderick, John Woodside, Rex Hay, Morgan Snyder, Mike Bolster, Joe Boyer and two highly-promising Ireshman runners—Dave Lacey and Billy Hunt, Ivan almost became embarrassed at the number of names, "We've really got 'em and they're all interchang able," he said. The co-sponsors of the Rising Generation series are pleased to reprint the new "Guide to 18-year-old Adulthood in New Jersey." It appears in four parts detailing rights and responsibilities under the Age of Majority Law.

The brochure was written and prepared by the Department of Community Affairs. Office of Youth Services.

From the preamble by Gov.

From the preamble hy Gov-ernor William T. Cahill: "This new law will free you

from the double standards that from the double standards inau made you old enough for some adult rights but not old enough for others. It will give you what you long sought and rightly deserved: The full rights and responsibilities of citizenship and the opportunicitizenship and the opportunity lo parlicipiale fully in our

"In recent years, several states have extended the rights and responsibilities of adult-bood to 18-year-olds. Some of hood to 18-year-olds. Some of these states have also low-ered their drinking age to 18; others have not. I am glod to say that New Jersey has offered you the Juli range of adult rights including the right to hay and sell alcoholic heverages. Unfortunotly, in some states which have lowered their drinking age, automobile accident rates for young popple have increased. Hopefully, the same will not hoppen in the same will not happen in New Jersey. The Ago of Ma-jority Law is ample proof that we believe the youth of New Jersey have acted and will act responsibly, and in that we have placed our trust. Please remember that the lives of others may depend on your judg-ment, judgments which may affect you for the romainder of your life, . . . "

Tillo-insurance policies, issued in a great number of states, are usually paid at the time of sale as a part of the purchase. Once this is done, the policy remains effective as long as the buyer or his heirs own the property. The cost of the lender's policy is about one per cent of the folal loan. The premium for the buyer's policy is usually less than that. Of course, property value is the basis for computing the charge.
